##### **SENATE RESOLUTION NO. 39**

WHEREAS, The U.S. Constitution requires an actual enumeration of

---

149

the population every ten years, and entrusts Congress with overseeing all aspects of each decennial enumeration; and

WHEREAS, The sole constitutional purpose of the decennial census is to apportion the seats in Congress among the several states; and

WHEREAS, An accurate and legal decennial census is necessary to properly apportion U.S. House of Representatives seats among the 50 states and to create legislative districts within the states; and

WHEREAS, An accurate and legal decennial census is necessary to enable states to comply with the constitutional mandate of drawing state legislative districts within the states; and

WHEREAS, Article 1, Section 2 of the U.S. Constitution, in order to ensure an accurate count and to minimize the potential for political manipulation, mandates an "actual enumeration" of the population, which requires a physical headcount of the population and prohibits statistical guessing or estimates of the population; and

WHEREAS, Title 13, Section 195 of the U.S. Code, consistent with this constitutional mandate, expressly prohibits the use of statistical sampling to enumerate the U.S. population for the purpose of reapportioning the U.S. House of Representatives; and

WHEREAS, Legislative redistricting conducted by the states is a

critical subfunction of the constitutional requirement to apportion representatives among the states; and

WHEREAS, The United States Supreme Court, in No. 98-404, Department of Commerce, et al. v. United States House of Representatives, et al., together with No. 98-564, Clinton, President of the United States, et al. v. Glavin, et al. ruled on January 25, 1999 that the Census Act prohibits the Census Bureau's proposed uses of statistical sampling in calculating the population for purposes of apportionment; and

WHEREAS, In reaching its findings, the United States Supreme Court found the use of statistical procedures to adjust census numbers would create a dilution of voting rights for citizens in legislative redistricting, thus violating legal guarantees of "one-person, one-vote"; and

WHEREAS, Consistent with this ruling and the constitutional and legal relationship of legislative redistricting by the states to the apportionment of the U.S. House of Representatives, the use of adjusted census data would raise serious questions of vote dilution and violate "one-person, one-vote" legal protections, thus exposing the State Illinois to protracted litigation over legislative redistricting plans at great cost to the taxpayers of the State of Illinois, and likely result in a court ruling invalidating any legislative redistricting plan using census numbers that have been determined in whole or in part by the use of random sampling techniques or other statistical methodologies that add or subtract persons to the census counts based solely on statistical inference; and

WHEREAS, Consistent with this ruling, no person enumerated in the census should ever be deleted from the census enumeration; and

WHEREAS, Consistent with this ruling, every reasonable and practical effort should be made to obtain the fullest and most accurate count of the population as possible, including appropriate funding for state and local census outreach and education programs, as well as a provision for post census local review; therefore, be it

RESOLVED, BY THE SENATE OF THE NINETY-FIRST GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that we call on the Bureau of the Census to conduct the 2000 decennial census consistent with the aforementioned United Supreme Court ruling and constitutional mandate, which require a physical headcount of the population and bars the use of statistical sampling to create or in any way adjust the count; and be it further

RESOLVED, That the Illinois Senate opposes the use of P.L. 94-171 data for state legislative redistricting based on census numbers that have been determined in whole or in part by the use of statistical inferences derived by means of random sampling techniques or other statistical methodologies that add or subtract persons to the census counts; and be it further

RESOLVED, That the Illinois Senate demands that it receive P.L. 94-171 data for legislative redistricting identical to the census tabulation data used to apportion seats in the U.S. House of Representatives consistent to the aforementioned United States Supreme Court ruling and constitutional mandate, which require a

physical headcount of the population and bars the use of statistical sampling to create or in any way adjust the count; and be it further

RESOLVED, That the Illinois Senate urges Congress, as the branch of government assigned the responsibility of overseeing the decennial enumeration, to take whatever steps are necessary to ensure that the 2000 decennial census is conducted fairly and legally; and be it further

RESOLVED, That a copy of this resolution be presented to the Speaker of the U.S. House of Representatives, the Majority Leader of the U.S. Senate, the Vice President of the United States, and the President of the United States.

Senator L. Walsh offered the following Senate Resolution, which was referred to the Committee on Rules:

#### **SENATE RESOLUTION NO. 40**

WHEREAS, Illinois is blessed with abundant waterways; they provide drinking water and important commercial and recreational opportunities, and have contributed much to the natural beauty, history, and culture of this State; and

WHEREAS, The locks and dams on Illinois waterways bring many cultural and economic benefits; they make possible an important body of waterborne trade, contribute to flood control, and provide recreational resources; and

WHEREAS, The waterways of Illinois and their associated locks and dams benefit the people of many states and are used in a significant portion of midwestern commerce; and

WHEREAS, The considerable importance of Illinois' waterways to states throughout the midwest and other parts of our Nation make them an appropriate subject for federal assistance; and

WHEREAS, It is especially important that these resources be properly maintained, so that their usefulness is unimpaired and their beauty is preserved for future generations; therefore, be it

RESOLVED, BY THE SENATE OF THE NINETY-FIRST GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that we express our commitment to maintaining, preserving, and where appropriate upgrading Illinois' system of waterways and their associated locks and dams, and we invite the United States Congress to join us in this commitment; and be it further

RESOLVED, That we respectfully but urgently request the United States Congress to express its commitment to the Nation's waterways by making available additional financial and technical assistance to aid the State of Illinois in preserving and maintaining its important waterways and the critical locks and dams they contain; and be it further

RESOLVED, That suitable copies of this resolution be presented to the President pro tempore of the United States Senate, the Speaker of the United States House of Representatives, and to each member of the Illinois congressional delegation.

Senator O'Malley offered the following Senate Resolution, which was referred to the Committee on Rules:

**SENATE RESOLUTION NO. 42**

WHEREAS, The granting of credit is a matter that is of economic importance to the citizens of this State and of concern to the Senate; and

WHEREAS, It has come to the attention of the members of this Body that certain lenders are charging fees and interest on short-term loans that result in annual percentage rates in excess of 300%; and

WHEREAS, The imposition of exceedingly high interest rates creates financial burdens on persons who must borrow on a short-term basis; and

WHEREAS, Borrowers who take out short-term loans may constitute a captive market for lenders who charge high rates of interest; and

WHEREAS, These short-term loans, commonly called "payday loans", typically require the borrower to give the lender, at the time of the loan, a postdated check in an amount sufficient to pay the loan; and

WHEREAS, Additional information about the practices of lenders who make payday loans is necessary to enable the Senate to determine if additional regulation of this business is necessary; therefore, be it

RESOLVED, BY THE SENATE OF THE NINETY-FIRST GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that the Department of Financial Institutions is directed to conduct a study of the business of making payday loans; and be further

RESOLVED, That the study include a determination of the number and locations of entities engaged in the payday loan business, information on the annual percentage rate of interest and other charges imposed upon borrowers who receive payday loans, and a profile of the borrowers who take out payday loans; and, be it further

RESOLVED, That the study include a discussion of problems payday loan practices cause for borrowers and consumers in general; and, be it further

RESOLVED, That the Department of Financial Institutions report its findings and recommendations to the Senate by September 15, 1999; and be it further
